

Shipping Table Rates

Magento 1

MAGE PLUGINS
for magento

Overview

The “Shipping Table Rates Options” is the additional tool to manage shipping table rates in an easy way. You may filter, append and modify records through the web interface instead of batch file uploading each time you need your rates to be changed.

Managing Table Rates Grid

The screenshot shows a web application interface for managing shipping table rates. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Reports, and System. A 'Get help for this page' link is on the right. Below the navigation bar, the page title is 'Shipping Table Rates' with an 'Add New Rate' button. A 'Choose Website' dropdown is set to 'Main Website'. The interface includes pagination controls showing 'Page 1 of 1 pages', 'View 20 per page', and 'Total 0 records found'. There are buttons for 'Export to: CSV', 'Export', 'Reset Filter', and 'Search'. Below these are selection controls: 'Select All', 'Unselect All', 'Select Visible', 'Unselect Visible', and '0 items selected'. An 'Actions' dropdown and a 'Submit' button are also present. The main table has columns for Warehouse, Dest Country, Dest Region/State, Dest Zip/Postal Code, Condition Name, Condition Value, Method, Price, Cost, and Notes. The table is currently empty, displaying 'No table rates found.' The Condition Value, Price, and Cost columns have 'From:' and 'To:' input fields, and the Price and Cost columns have a currency dropdown set to 'USD'.

We provide an easy interface for managing all of your table rates.

Creating a new Shipping Table Rate

Dashboard **Sales** Catalog Customers Promotions Reports System [Get help for this page](#)

New Rate [Back](#) [Reset](#) [Save Rate](#)

Warehouse *

Dest Country *

Dest Region/State *

Dest Zip/Postal Code *

▲ * or blank - matches any

Condition Name *

Condition Value *

Method *

Price *

Cost *

Notes

We provide a number of table rate conditions so that you can be granular with your applicable rates. Items to specify include such things as country, state and postal code.

These conditions include:

- Weight vs Destination:
- Price vs Destination
- Number of Items vs Destination

Managing Table Rate Method Grids
